The Daily Gazetteer.

TUESDAY, OCTOBER 25. 1737.

Yesterday arrived a Mail from Holland.

LETTERS of the 3d O. S. from Belgrade say, the Count de Khevenhuller continues with his Troops at Orsova: That the Turks have laid 2 Bridges over the Danube towards Widdin, for better securing the Communication with Wallachia, whither they are continually sending Troops, in Order to form an Army strong enough to drive the Imperialists out of that Province: And that the Inhabitants of Transilvania are also preparing for a Visit from the Turks.

Those of the 8th from Vienna say, that Count Seckendorff with his Army is arrived in the Camp at Zokol in Bosnia, near the Drina, where he is to stay till he is joined by that under the Prince of Saxe-Hilburghausen; and that the Winter-Quarters are settled, according to which, Part of the Troops are to be quarter'd in Servia and Bosnia, and the rest in Lower-Hungary, Sclavonia and Croatia.

These Letters assure us, that the Emperor intends to create the Great Duchess of Tuscany Queen of Hungary, and to have her crown'd as such next Spring: That the Great Duke is buying up Snuff-Boxes, and several Sorts of Jewels for Presents upon that Occasion; and that in the mean Time the Great Duchess is certainly again with Child, tho' the Imperial Court does not yet think fit to declare it; which Circumstance, together with the Emperor's Intention of creating her Queen, makes it doubted whether she is to accompany the Duke her Husband, when he goes to take Possession of his new Dominions.

By a Memorial laid before the Dyet at Ratisbon, of the Arrears which are due on Account of the Roman Months from the Year 1716 to 1735, they appear to amount in the Whole to 4,402,011 Florins.

They write from Petersburg, by Letters of the 1st Instant, O. S. that Count Munich's Army was expected that Day at Perelowna in the Ukraine, and that General Lascy arrived the 14th ult. at Bachmuth.

The Letters of the 27th ult. O. S. from Leopol say, they have Advice from Choczim and Bialacerkiew, that the Grand Vizier has sent his Army into Winter-Quarters, having posted 20,000 Men near Bender, as a Body of Observation, and that he went afterwards to Choczim, to be nearer to the Congress at Nimirow.

Those of the 5th Instant from Dantzick say, that besides the 1,500,000 Livres, which the King of France remitted thither some time ago, to make that City Amends for what it suffer'd during the late Siege, his Majesty has made another Remittance of 500,000 more for that Purpose.

These Letters mention a Difference that has happened lately between the Magistrates of Thorn and the Jesuits of that Town, concerning a College the Lutherans have there for the Education of their Youth, which the Jesuits demand may be removed to another Place, and say they have a Right to insist on it: But the Magistrates thinking such an Alteration would be contrary to the Rights of the City, absolutely refused it, and have sent Deputies to Dresden, to make Remonstrances against it to the King of Poland.

They write from Manheim, that a Society of Free Masons being set up there, the Elector Palatine has issued an Edict, forbidding his Soldiers and Subjects, of what Rank soever, to enter into the said Society, on Pain of incurring his Displeasure.

Letters from Naples say, that the King is sending a most obliging Letter of Congratulation to his Britannick Majesty, in Answer to the Notification received from our Court, of the Princess of Wales's Delivery of a Princess; and that he has resolved to send Ambassadors both to England and Holland, to negociate a Treaty of Commerce.

From Rome they write by Letters of the 1st Instant, that the Accommodation between that Court and Spain is signed, by which all Differences relating to the Collation of Benefices in that Kingdom are determined; and that the Datary for that Nation at Rome, is again set open. It is thought the Accommodation between Naples and Lisbon will also soon be concluded.

The Letters from thence add, that in a late Congregation of the Cardinals for *Propagating the Faith*, the Great Cause was debated, which has been 6 Years depending between the Titular Bishops of Ireland, and the Canons of the Lateran Church. The latter demanded to be re-admitted into Possession of the Benefices they enjoyed in that Kingdom before the Reformation. The Bishops opposed this, because the Canons having abandoned their Livings at the Time of the Revolution in Ireland, thereby forfeited their Rights. After some Debates the Congregation gave a Decree in Favour of the Bishops.

Those of the 10th O S. from Geneva say, the Burghers have at last consented to lay down their Arms; that the Garison has begun to mount Guard, and that the Conferences are to be opened forthwith, for settling the Matters in Dispute.

The Letters from Berlin mention the Death of M. Neuman, a Counsellor of the Court, and Director of the Royal Dispensary, who is very much lamented. He had the Character of being one of the greatest Chymists in Europe, and has made curious and even surprizing Discoveries in that Science. They add, that M. Beausobre, a Minister of the Gospel, and a Person well known in the Republick of Letters, is at the Point of Death.

Those from Amsterdam take Notice of the fruitless Negociatio of M. Swart, the Dutch Envoy at Petersburg, who, they say, has been a Year and more labouring for a Treaty of Commerce with Russia, to so little Purpose that 'tis apprehended very much he is thwarted by the Minister of some other Power. They say that the Treaty aimed at, is to be on the Footing of that concluded with the same Power two Years ago by Great Britain; which if it should succeed, the English Trade in that Country would suffer by it, particularly in those Goods that are brought by the Caravans.

The Emperor's Commissaries at Antwerp have rejected 115 Articles of Grievance represented by those of the States General, and have declared that the Emperor, when he abolished the Ostend Company, did not tie up his Hands from procuring his faithful Subjects an Equivalent for the Revocation of that Company's Grant. 'Tis pretty evident, says our Correspondent, that the Instructions of the Imperial Commissaries turn upon this main Point, or Alternative, viz. Either that the Maritime Powers shall consent to the sending some Merchant Ships to the East-Indies; or else that the Tariff of the Austrian Netherlands be alter'd, and rectify'd, according to the Plan they shall propose: A Plan with which the Catholick Netherlands would be as well pleased, as with the Restoration of the Ostend Company. In the latter Case, the Dutch East-India Company will think fit to purchase all the Factories of the Ostend Company in the East-Indies; not that they have need of them, but to hinder the Swedes and Danes from getting those Settlements into their own Hands: Upon which Occasion they will only act upon the same Principle as they did the last Century, when they bought of the King of Prussia the Fort of Arquin upon the African Coast. Mean Time the English and Dutch Commissioners have demanded of those of the Emperor, a List of what Goods the Netherlanders import and export.

They write from Spain, that the King having fix'd the extraordinary Indulto he demanded on the Goods brought by the last Florilla and the Azogues Ships, at 4 1-half per Cent. which would have produced near 600,000 Pieces of Eight; the Merchants of Cadiz were of Opinion, that it was not possible for them to furnish so considerable a Sum, without feeling the Want of it, and therefore they have made Representations to the Court upon that Head, and have offered in the Whole 250,000 Pieces of Eight. But we don't hear whether the King is yet come to any positive Resolution upon that Head.

Londonderry, Oct. 11. Last Saturday Night a Boat with 11 Persons going to Green Castle, a Place about 20 Miles Distance from hence, were lost. This melancholy Accident happened by their crouding too much Sail endeavouring to outgo another Boat that was in Company, and took in a Sea that sunk them. The People in the other Boat could hear their Cry, but could give them no Assistance.

The same Evening Mr. Joseph Boggs, an eminent Merchant of this City, was interr'd in a very decent Manner.

Dublin, Oct. 18. On Sunday last his Grace the Lord Lieutenant qualify'd himself at St. Warburgh's Church, where an excellent Sermon was preach'd by the Rev. Dr. Delany, Rom. ch. xiii. ver. 3, 4. *For Rulers are not a Terror to good Works, but to the evil. Wilt thou then not be afraid of the Power? Do that which is good, and thou shalt have Praise for the same: For he is the Minister of God to thee for Good. But if thou do that which is evil, be afraid; for he beareth not the Sword in vain: For he is the Minister of God, a Revenger to execute Wrath upon him that doeth Evil.*

The only ſhort and infallible Cure

For that reigning Diſeaſe the SCURVY, and all Scorbutick Humours, tho' arrived to the higheſt and moſt inveterate Degree, or of ever ſo many Years ſtanding, and that without any ſenſible Evacuation or the leaſt Purging, which by an unaccountable Miſtake is generally adviſed, although always found rather to increaſe and confirm the Scurvy than cure it.

By the ſo much famed and moſt pleaſant Chymical DROPS:

WHICH, without the leaſt Trouble, Confinement, or any Diſorder whatever, do at once hit at the true Cauſe of the Scurvy, and intirely deſtroy it, and all Scorbutick Humours and Effects, Root and Branch, ſo as never to return again, as many Thouſands of both Sexes have experienced, and as all who take them in 3 Days time will be convinced; for they almoſt inſtantly alter the morbid State of the Juices, purify the Blood, ſweeten all the Fluids, cleanſe them from Impurities, and directly clear the whole Habit from all Spots, Blotches, black and blue Marks, Itchings, foul Eruptions, or Breakings out, Wounds of the Limbs, languid Heavineſs of the whole Body, wandring Pains, Weakneſs of the Back, and all the vaſt Variety of Symptoms by which the Scurvy imitates and often lies concealed under the Appearance of the Rheumatiſm, and many other Diſtempers.

And for ſtrengthening the Stomach, immediately creating a good Appetite, cauſing a regular and eaſy Digeſtion of Food, and curing all windy Effects and Diſorders of the firſt Paſſages (whence proceed Head-achs, Vapours and other Indiſpoſitions) no Bitters nor any other Medicine upon Earth can compare with them, inſomuch that beſides infallibly curing the Scurvy in all its Shapes and Appearances, they alſo effectualy and immediately cure the Green-ſickneſs in Virgins, Worms of all Kinds in young or old, and almoſt all other Chronick Diſeaſes, (which are chiefly occaſioned by Indigeſtion and flatulent Crudities in the Stomach and Bowels) and certainly prevent Fevers, Agues, and other acute Illneſſes.

They are wonderfully Cordial and Reſtorative, ſtrengthen and enliven the whole Machine, and aſſoon as taken, make the Patient chearfully Lightſom, Brisk and Vigorous to admiration, and as good for all Sorts of Perſons, to preſerve as well as to procure a ſound and healthy State of Body.

But the great Reputation theſe ſomuch fam'd and plealant Chymical Drops have ſo univerſally gain'd among Perſons of Eminence, for their ſuddenly and infallibly curing the Scurvy and all Scorbutick Humours, and other Chronick Diſeaſes, in ſuch an eaſy and agreeable Manner, have occaſioned many to imitate them, ſome under the ſame, and others under other Names: Be careful therefore not to be deceiv'd; but be ſure to have the Right, which by the Author's ſpecial Appointment, are to be had only at the Gentlewoman's, at the Two Blue Poſts, in Haydon-Yard, in the Minories, at 3 s. 6 d. a Bottle, with Directions.
